

TTI Scanning Solutions

2022

Thank you for your interest in TTI's ID scanning solution (Scan2PMS). Increased staff productivity, added security, reduced administration costs, and improved guest satisfaction are some of the most critical elements for a successful and profitable hotel. TTI addresses these needs and more with Scan2PMS which expedites guest transactions and improves operational efficiencies.

Streamline Front Desk Operations

- Ⓢ Instantly scan driver's licenses, passports and identification documents
- Ⓢ **Reduce check-in time** and enhance customer service
- Ⓢ Obtain accurate address information for security and future marketing efforts
- Ⓢ Eliminate need for photocopies reducing time and money
- Ⓢ Secure your property with **captured guest images**
- Ⓢ Download data instantly into most Windows-based property management systems
- Ⓢ Helps to fight **Charge-backs** by saving a picture to prove ID and Credit Card matched

Authentication

TTI offers three models that can provide Authentication of the IDs. The Assuretec ID-150 with Authentication includes a special software program **Reveal ID** that while scanning the ID compares the Barcodes in the back to the information on the front (often fake IDs will not match) it then compares the data against the templates to look for even minor modifications. A pop-up window then displays if the ID has passed or failed and if it fails tells you what failed in a message in the pop-up. The Gemalto AT 9000 and Desko Penta UV also have **Reveal ID** but add to that **Ultra-Violet and Infra-Red Scanning** that looks for any tampering with the ID. Both Desko and AT9000 do Passports as well as Driver's Licenses. If your property has an issue with Fraudulent IDs these are great products for your property.

New ID-FINDER with **DO NOT RENT** feature

TTI has now made it easy to find IDs that are stored in your database. ID finder lets you search by standard criteria for any ID stored in your hard drive, shared drive or server. It also now allows you to designate an ID for "DO NOT RENT" and to include the reason. This feature also allows you to pull up a list of all "Do Not Rent" that includes the picture. Once noted if an ID is listed as such, a pop-up will show the ID with the DO NOT RENT designation and why.

TTI Service and Support

At TTI customer service is our highest priority. We are a family run business, so our reputation is important to us. Our service agreement includes 24/7/365 customer service, unlimited reinstallations, and most importantly it ensures all ID templates are up to date when modified by the government. **All of this is included free of charge for the first year as part of your original purchase.** We also offer discounts for early payment of Maintenance and Template Agreements for multiple years. TTI Scan2PMS is attracting customers around the world to speed up the check-in process, improve the quality of data, and provide extra security.

TTI Scanning Solutions

i-identify ID-150 with and without authentication

The ID-150 is a full-color, 600 DPI, duplex scanner that will scan the front and back of a card and its magnetic stripe in one simple operation. This results in a more accurate reading even of worn Driver's Licenses. The ID-150 will quickly and accurately verify identity documents such as driver's licenses, military IDs, and federal, state, and local government IDs from all over the world when authentication is added. **1 Year Warranty** Dimensions: 2.8" H x 4.6" W x 6.7" D

Desko Icon Scanner

Faster, Smaller, Better and less expensive. Scans Driver's Licenses, Government IDs and Passports. Simply place on glass with quick read results. 400 dpi high-resolution scans. Reflection removal scan technology. USB powered device
1 Year Warranty Dimensions: 3.1" H x 5.8" W x 5.8" D

Gemalto QS1000 and AT9000 with and without Authentication

The Gemalto Scanner provides high resolution ID, passport and document scanning in a compact form. The reader contains no moving parts, ensuring reliability and low maintenance. Can be set to read both sides of the ID including barcodes. **The AT9000 model adds document authentication**, giving the check in process additional security measures, while still offering the same efficiency and reliability. **1 Year Warranty** Dimensions: 6.2" H x 6.4" W x 7.5" D

Desko Penta Scanner with or without Authentication

Full page, passport and ID Scanner with multiple light sources. Automatic recognition of passports and ID cards. Rugged design but does need to be plugged into power source and connects to terminal via USB. Can be set to read both sides of an ID including the barcodes. The Penta Scanner comes in the standard that is great for IDs, Driver's License and Passports and also in a **UV version that can provide authentication** with our authentication software.
3 Year Warranty Dimensions: 5" H x 5.6" W x 8.6" D

SCAN 2PMS Hardware ships from the manufacturer at low rates. **INTERNATIONAL SHIPPING CAN BE QUOTED WHEN WE KNOW THE MODEL AND QUANTITY but does not include duties or taxes.** The software is delivered via an email link along with a support tool so we can log in and help with the install and training.
