

PRESENTING TTI PREMIER

Renewed purpose and added value to the hotel business center

ENHANCEMENTS INCLUDE:

- > Complete statistics on business center usage
- > Instant control of messages, links and pictures
- > Set access codes to restrict usage to guests only
- > Use the splash page as digital signage

Premier Advantages:

- Allows hotel personnel to **assign a General Password** or “one time use” codes that can restrict access to guests and keep walk-in traffic from using your business center. Codes can be customized to different session lengths and to only work during certain time frames. A great way to provide an extra benefit to VIP guests or used as an additional revenue stream.
- Offers each hotel the ability to **edit splash page**: change pictures, quick links or update special messages on their own
- **Ads and Announcements** can be changed at your convenience
- **Customize desktop** with different fonts, colors, backgrounds
- **Equipment Status** – web portal allows quick look at status of equipment on-line/off-line
- **Manage an unlimited number computers** from the same portal, so you can easily manage all your locations
- **Statistics** includes # of sessions per computer, average session time, # printed pages, application usage

TTI offers: Unparalleled 24/7 Support, Service, Flexible Implementation Plans Compatible with Windows and Mac
